Marketing Investment Recommendation

Primary recommendation: Campaign B + Email

With equal spend across all campaign-channel cells in a one-week test, Campaign B + Email is the strongest option because it produces the highest total revenue overall and still ranks first among new customers.

Campaign A = casual tone; Campaign B = sales-oriented tone.

B + Email generated $533,036.65 from 23,065 interactions.

The same combination produced $225,285.52 in the new-customer segment.

Decision rule: under equal spend, prioritize the cell with the highest realized revenue and validate efficiency second.

Total Sales
$2.3M
Observed revenue pool

New-Customer Share
42.60%
Of all interactions

Email is the largest revenue channel overall at $947,748.87.

Email also leads among new customers at $402,652.49.

Instagram is the most efficient new-customer channel at $23.46 per interaction.

Average time on site is stable at 134.57 seconds, so the winner is not explained by a large engagement gap.

Overall Ranking

Rank	Camp.	Tone	Channel	Interactions	Conv.	Sales	Sales / Lead
1	B	Sales-oriented tone	Email	23,065	47.77%	$533,036.65	$23.11
2	A	Casual tone	Email	18,071	47.11%	$414,712.22	$22.95
3	B	Sales-oriented tone	Web Banner	16,694	47.55%	$385,345.70	$23.08
4	B	Sales-oriented tone	Instagram	16,459	47.76%	$382,487.78	$23.24
5	A	Casual tone	Instagram	12,880	48.68%	$302,735.29	$23.50
6	A	Casual tone	Web Banner	12,831	47.60%	$296,424.89	$23.10

B + Email is first on total sales and first on revenue share at 23.03% of all observed sales.

B + Instagram is the next best combination and the strongest secondary test path.

Why B + Email Wins

Overall Test

p = 0.965

Campaign-level conversion parity

New-Customer Test

p = 0.384

No decisive rate edge

Primary Driver

Scale

Most revenue at equal spend

Secondary Driver

Efficiency

Keep B + Instagram testing

Channel	B - A Sales	B - A Conv.	p-value
Email	$118,324.43	+0.67 pp	0.180
Web Banner	$88,920.81	-0.05 pp	0.927
Instagram	$79,752.49	-0.93 pp	0.116

The recommendation is revenue-driven, not based on a dramatic conversion-rate lift.

B + Email wins because it converts equal spend into the most total sales while keeping conversion quality stable.

B + Instagram remains the best secondary lane if the team wants an efficiency-focused follow-up test.

Action Plan

Allocate the next wave of budget primarily to Campaign B + Email.

Refresh email subject lines, CTA wording, and offer framing before expanding into new channels.

Run B + Instagram as the secondary optimization lane to preserve learning on efficient reach.

Track spend, CPA, and margin in the next test so the team can move from revenue ranking to full ROI optimization.

Limitation: the dataset does not include media cost or margin, so this is a commercial recommendation based on observed revenue, conversion, and scale.
